Excellence in Programme Management Awards

Overall Winner

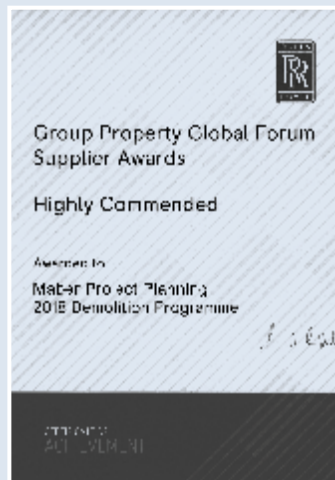

“Everyone is very positive regarding your professional services. We have even more complex projects to deliver in the next few years and as ever we look forward to MPP’s continued impeccable support”

"As always, MPP have been diligent, proactive, professional and at all times personable in their duties and central to achieving another quality project completed on time and on budget"

"Thank you especially to Matt for his patience and endurance on what was a very difficult opportunity"

"The project would not have happened without you. You've done your job but so much more! You are the first name on my team sheet for the next job"

"Many thanks to your team for delivering a first class decommissioning project. This project was a challenge considering the operational teams in the nearby buildings re noise and disruption"

Hooley's, Nottingham

This design and build project comprised the construction of a new mixed-use city centre residential development comprising 172 one and two bedroom apartments and ground floor retail areas

MPP undertook a full Employer's Agent role including project management and quantity surveying services

This is one of a number of projects MPP have successfully undertaken for David Wilson Homes

Advanced Manufacturing Facility, Solihull

This £50m design and build project comprised the construction of a new 350,000ft² Global Engineering Centre of Excellence for 2,200 staff. The works included manufacturing, office and administration, kitchen, dining, welfare areas and extensive site works

MPP provided a full Project Management service including design watching brief and principal designer services

MPP also undertook the full management and co-ordination of the c£50m fitting out of the facility including the management and co-ordination of all services and new plant and equipment installations, catering facilities and office fit outs

A Rolls-Royce plc and Goodrich Corporation joint venture

Precision Casting Facility, Derby

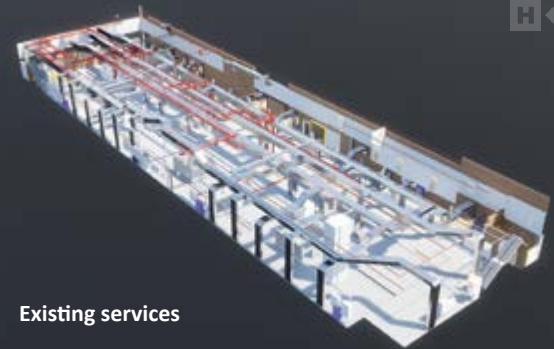

This project comprises the refurbishment and upgrade of a 320,000ft² 1970's turbine blade foundry and production facility. The works include asbestos removal works, removal of multiple redundant services installations and full services renewal including critical life safety systems and environmental controls installations, new welfare, kitchen and canteen areas for 1,200 personnel, full façade renewal, and associated external works, services and drainage installations

The works have been carefully planned by MPP working closely with all stakeholders to minimise interference to operations and maintain production 24/7 364 days a year. The works are being carried out over multiple phases with multiple contracts all in accordance

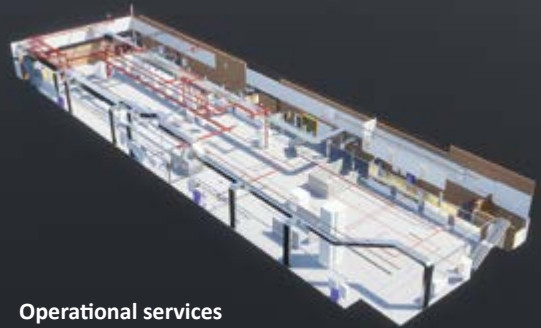

with a master delivery programme again developed by MPP

MPP are providing a full Lead Consultant service comprising an initial full point cloud survey of the existing building and equipment installations (as sample images), full pre-contract design services, design watching brief post contract, project management, quantity surveying services and full management and co-ordination of all new plant & equipment installations

This is one of a number of projects MPP are currently successfully delivering for Rolls-Royce PLC

The Rolls-Royce logo, featuring the company name in a white serif font on a dark blue rectangular background.

Existing services

Operational services

Proposed services

Nottingham High School

This project comprised the construction of a new three storey sixth form centre within an existing restricted school courtyard area. A feature ETFE transparent roof was incorporated as a key element of the works. New accommodation included classrooms, a lecture theatre, a sixth form common area and coffee bar as well as offices, a new kitchen, servery and dining hall facilities together with associated plant and storage areas

MPP provided Quantity Surveying and CDM Consultant services with the works being procured on a Traditional 'Plan and Specification' basis

Food Manufacturing Facility, Leicester

This design and build project comprised the 20,000 ft² extension of an existing fully operational food production facility. The works included full plant and equipment fit out works to increase production capacity and capability, as well as modification works within the existing facility and the construction of a new staff car park

MPP undertook a full Employer's Agent role including project management and quantity surveying services

Samworth Brothers

QUALITY FOODS

Academy Facility, Nottingham

This design and build project comprised the construction of a new first team training facility on an existing training campus. The works included a gym and treatment areas as well as changing facilities, a kitchen and dining hall, offices and a management/seminar area

MPP undertook a full Employer's Agent role including project management and quantity surveying services

This is one of a number of projects MPP have successfully undertaken for Nottingham Forest Football Club
